

CONTEMPORARY CREATIVITY WITH ARTIST TANJA PAK

Winner of Maradiva Cultural Residency at Arte Laguna Prize 2019, Ms Tanja Pak chose to be in our midst this December 2019 for her two weeks' residency.

Holder of a master's degree at the Royal College of Art and professor at the Academy of Fine Art at the University of Ljubljana, Slovenia, Tanja overlooks the glass and ceramic department; a passion which is transmitted through her work.

This 13th December, an exhibition of Tanja's work was held at Maradiva Art Gallery; an opportunity for the artist to explain the creative process and the production of her pieces, and unveil how Mauritius inspired her. Guests of Maradiva, Sands and invitees were treated to some Slovenian canapés.

Conscious of the environment and the people around her, Tanja has opted to support two local institutions namely "Terre de Paix, Fondation pour L'enfance" and "Friends of the Earth" by donating the proceeds of the sale of one of her work.

Our A.I.R programme promotes exchanges between local and international artists and is part of our ongoing commitment to contemporary art.
